

Mohamed Wael

Computer Science Student

Damanhour, Egypt | mhamedwaell22@gmail.com | +20 106 325 3503 | LinkedIn | GitHub

Motivated and business-minded Computer Science student with a strong passion for technology, innovation, and digital problem-solving. Skilled in web development, algorithms, and creative thinking. Actively seeking opportunities to contribute to impactful projects and grow in dynamic environments.

Education

Faculty of Computer Science and Information, Damanhour University 2024 – 2028
(Expected)
Bachelor's Degree in Computer Science
GPA: 2.96

Experience

ITI Python Intern 2025
- ITI Python Intern — Learned the basics of Python programming, including Object-Oriented Programming (OOP) and Data Structures, along with data manipulation techniques.

NTI Web Intern 2025
- Learned HTML, CSS, and JavaScript.
- Built small practice projects.

Projects

Journey through Egyptian History 2025
Built an interactive website using React to showcase Egypt's history and monuments. Designed a responsive, component-based layout with smooth navigation and engaging visuals for an enhanced user experience on all devices.

Dash Box 2025
Developed a shipping company website for deliveries across Egypt's 27 governorates. Created user-friendly forms, service listings, and contact pages with a responsive design to ensure accessibility and ease of use.
